[protamim](#)

"I specialize in scalable, maintainable solutions built on clean architecture."

Skills

Languages: HTML, CSS, JavaScript

Frameworks: React.js, Next.js, and Express.js

CSS Framework: TailwindCSS

Database: MongoDB

Version Control: Git, GitHub

Server-Side: Node.js

Experience

EzyCourse - Front-End Developer

2024 - PRESENT

A global LMS SaaS platform

- Built and improved web pages using React.js to make the platform faster and easier to use.
- Worked closely with designers and backend developers to turn ideas into working features.
- Created responsive layouts so the website looks good on phones, tablets, and computers.
- Used Tailwind CSS to style pages quickly and keep designs consistent.
- Fixed bugs and made changes based on user feedback to improve the user experience.
- Helped keep the code clean and organized using best practices in React development.
- Added new features like course creation, user dashboard, and content management tools.
- Worked with APIs to show real-time data and keep everything updated smoothly.
